

All-In-One APP Play & Setup Solution

AutoDefend all hardware terminals /camera control & setup by AutoSafe APP, which is developed by AutoDefend application engineers team few years hardwork in design & improvement, made its use friendly and attractive by global customers.

- Solution 1: its short distance (less than 20meters) Bluetooth technology end to end encrypt communication (between APP and Hardware), not through public internet or wifi hotspot.
- Solution 2: the APP only work as hardware setup/calibration tools, not for far distance remote control.
- Solution 3: its support download from apple store or google store, customized APP only for offline install;

BEST TRUCK SAFETY SETUP APP SOLUTION

AutoSafeAI APP Diagram

Applications

- Button-Push: infrared remote
- PC program setup: WiFi/Bluetooth
- Touch screen: SAW
- Touch screen play/setup: WiFi/Bluetooth

Diagram

Features

- 1. Not use friendly for push lot buttons lot time;
- 2. Not use in vehicle;
- 3. Battery runs out;
- 4. Set detection zone or test must required 2 persons at least.

A.i 360 BirdView Kit

Construction Site

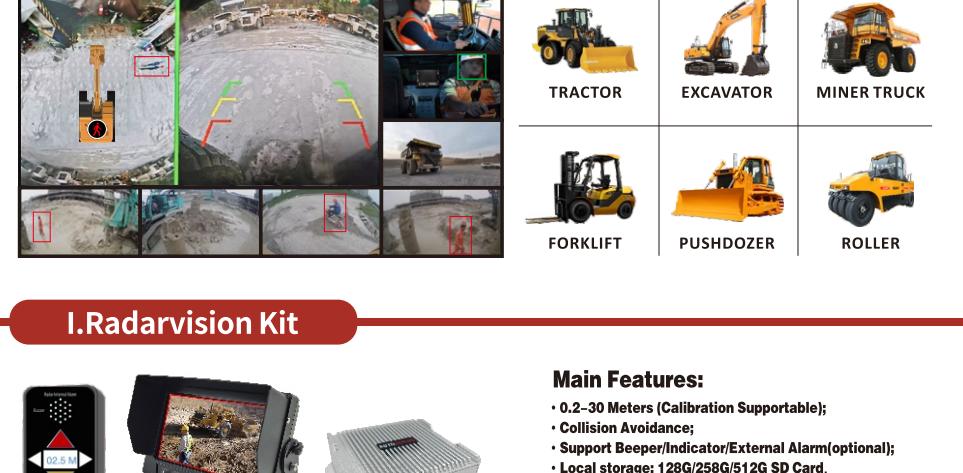

A.i 360 AVM

ADAS + DSM

I.Radarvision Kit

Main Features:

- 2-30 Beam Calibration Supportable;
- Collision Avoidance;
- Support Beeper/Indicator/External Alarm(optional);
- Local storage: 128G/256G/512G SD Card.

P112 ADAS+DSM+Watch

Main Function:

- In-time driver sleep alert; anti-fatigue, yawning, eyes close
- In-time driver distraction alarm; smoking, calling, eating/drinking while driving.
- Seatbelt detection & Seatbelt padding vibration warning
- Overspeed reminding
- Built-in Wi-Fi module
- Support internal TF card, maximum 512GB
- GPS positioning
- Support warning photo and video storage.
- Power connection and signal output: 5-pin cable.
- Make integration with MDVR via RS232 / RS485
- 4G LTE optional
- ADAS & T-watch function block ADAS Camera alarm; Lane departure alarm; Front car collision alarm; Pedestrian collision alarm
- Accessory: Cigarette power adapter, 3M tape, seatbelt 5-pin cable
- Installation: Easy and simple
- Installation: Easy and simple
- Works around all day, under any weather
- Suits for all skins and all vehicles

TT-CV-168 Premium 232 version

Main Function:

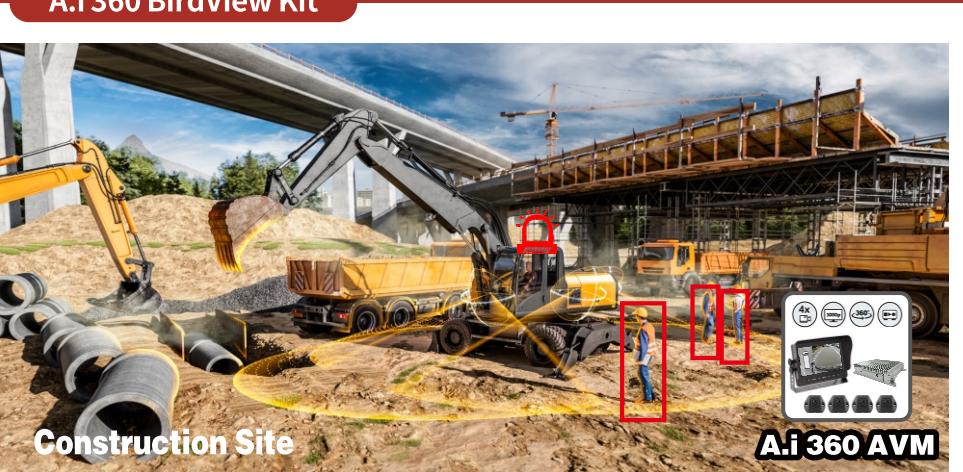

- In-time driver sleep alert; anti-fatigue, yawning, eyes close
- In-time driver distraction alarm; smoking, calling, eating/drinking while driving.
- Seatbelt detection & Seatbelt padding vibration warning
- Overspeed reminding
- Built-in Wi-Fi module
